EDUCATION

B.Sc. (Hons) in Information Technology specialized in Software Engineering
Sri Lanka Institute of Information Technology
CGPA – 3.14 (out of 4)

2022 Jan – 2025 Dec
Colombo, Sri Lanka

Advanced Level- Physical Science
J/Kokuvil Hindu College

2018 – 2020

EXPERIENCE

Software Engineer – Intern
Keture.

(2024 August – Present)

PROJECTS

Online Learning Platform

- Microservices architecture application.
- Web application using MERN stack.
- Containerization using Docker and deployment using docker compose.

GitHub Repository- <https://github.com/kirusanth-08/OnlineLearningPlatform-DS>

NASA APOD, Mars rover images website

- Web application using MERN stack technology, Tailwind CSS.

GitHub Repository- <https://github.com/kirusanth-08/NasaXplore>

SKILLS

Programming Languages – Java, JavaScript, Python, HTML, CSS, Kotlin, SQL, MySQL

Technologies – Version Controlling (Git, GitHub), Containerization (Docker), Database (MySQL, MongoDB), Fastify

Frameworks – ReactJs, ExpressJs, Django, Flutter, Tailwind CSS,

Tools – NodeJs, Postman, Visual Studio, VS Code, Kafka, Docker

Other Concepts – Machine Learning (Basic), DevOps, AWS

CERTIFICATIONS

JavaScript Intermediate – Sololearn.

DevOps participation – Devtown.

Azure AI fundamentals – Microsoft Certified..
